

GUAM COMPREHENSIVE CANCER CONTROL (CCC) AWARDS

Application for 2012 Spirit of Collaboration Award

A united front against cancer can tackle major issues—like better access to quality care, survivorship, health disparities, and quality of life—that are too broad and cross-cutting for any one organization to confront alone. The Guam CCC Coalition is a diverse group of public and private sector stakeholders and individuals who work collaboratively to reduce the burden of cancer and eliminate gaps in cancer services in Guam. The success of the CCC Coalition depends on the commitment and involvement of a broad spectrum of organizations and partners who are willing to share their expertise, resources and experiences with one another.

The **Spirit of Collaboration Award** is presented to organizations that demonstrate exemplary collaborative efforts in the fight against cancer. Collaboration is defined as the act of working together to achieve something. Collaboration can occur internally within one organization (between two or more programs or services) or it can be between two or more different organizations. Nominees *do not* have to be members of the CCC Coalition.
